

# Dr. McCullough: How It's Possible to Vaccinate w/ mRNA Via Milk

[deeprootsathome.com/dr-mccullough-its-now-possible-to-vaccinate-w-mrna-via-milk/](https://deeprootsathome.com/dr-mccullough-its-now-possible-to-vaccinate-w-mrna-via-milk/)

Jacqueline

Peter A. McCullough, MD, MPH, just revealed that **the Chinese can load cow's milk with mRNA exosomes through "milk bubbles" and have already successfully orally immunized mice.**

[On one level, I hesitate to publish this lest you think I'm all doom and gloom, but on the other hand I must, because I believe God is in control and that He wants us to use discernment which leads to wisdom and understanding. May this information empower you as you do your own research for yourself and your family.]

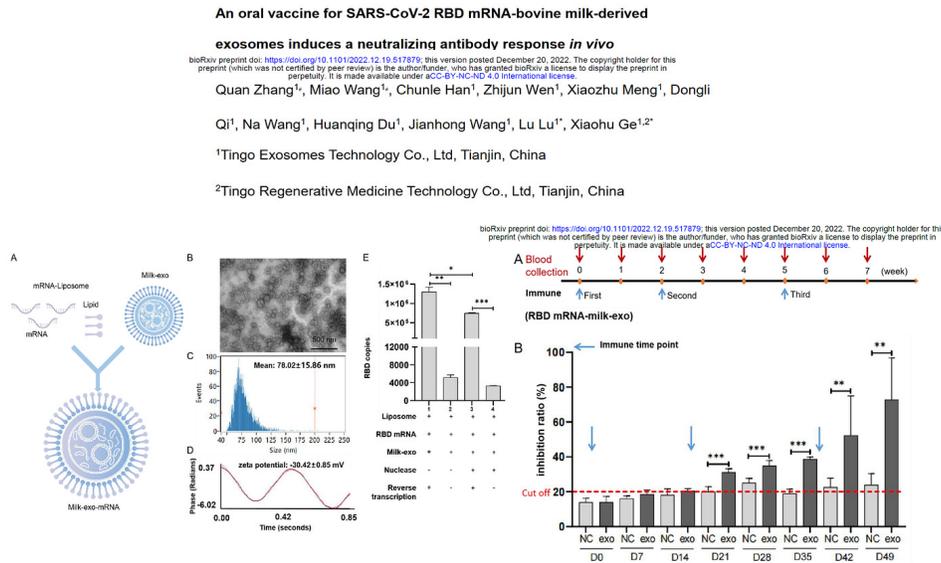

In McCullough's own words:

**"The nation's food supply can be manipulated by public health agencies to influence population outcomes.** A great example is fortification of cereal grains with folic acid — the synthetic form of folate — which successfully reduced the incidence of neural tube defects (e.g. spina bifida). **Now an oral route of administration is being considered specifically for COVID-19 vaccination using mRNA in cow's milk.**

Zhang and colleagues have demonstrated that a shortened mRNA code of 675 base pairs could be loaded into phospholipid (milk bubble) packets called exosomes derived from milk and then using that same milk, be fed to mice. The mice gastrointestinal tract absorbed the exosomes, and **the mRNA must have made it into the blood stream and lymphatic tissue because antibodies were produced in fed mice against SARS-CoV-2 Spike protein** (receptor binding domain)." ([source](#))

Hear Dr. McCullough discuss this from 2:45 to 3:21 (the end). (Marketing is apparently not here yet, but looks like it is on the way...)

35 seconds.

(Source) ‘*In vivo*’ means this is not being done in a test tube, but “within living organisms”. The research is done and ready to implemented – we just don’t know where or when.

Dr. McCullough continues:

“From a scientific perspective, these experimental steps taken by the Chinese were a stunning success. **However, given the damage mRNA vaccines have generated in terms of injuries, disabilities, and deaths, these data raise considerable ethical issues.**

“The COVID States Project has shown that 25% of Americans were successful in remaining unvaccinated. **This group would have strong objections to mRNA in the food supply, particularly if it was done surreptitiously or with minimal labelling/warnings.**

“**Children could be targeted with easily administered oral vaccine dosing or potentially get mRNA through milk at school lunches and other unsupervised meals.**

“For those who have taken one of the COVID-19 vaccines, having milk vaccines.. would allow even more loading of the body with synthetic mRNA which **may reside permanently in the human body.**

“These observations lead me to conclude that **mRNA technology has just entered a whole new, much darker phase of development. Expect more research on and resistance to mRNA in our food supply.** The Chinese have just taken the first of what will probably be many more dangerous steps for the world.”

It is time to find local sources for about everything.

Other food that we know IS or IS ABOUT TO BE altered:

- Beef
- Pork
- Fruits and veggies including avocados, cucumbers, asparagus, lettuce, leafy greens, raspberries, and more.

## **Dr. McCullough Now Officially Dropping Support for Flu Shot and Other ‘Routine’ Vaccines**

---

In an interview on [CHD.TV](#) with Dr. Paul Thomas, Dr. Peter McCullough give his professional reasons and the science behind his decision!

**“I could tell you through the course of my career, my personal life, I never questioned vaccines. I assumed they were safe and effective; it wasn’t my area of research. Doctors’... knowledge and our analyses of things change as the science changes, and based on those contemporary results, I’m dropping them! They’re no longer supportable to me, for my practice for myself.”** ~Dr. Peter McCullough

Please STOP injecting anything into your children’s bodies (or yourself) that your doctor won’t sign off with a Warranty of Vaccine Safety!

**“But examine everything carefully; hold fast to that which is good..”** ~1 Thessalonians 5:21

**\*\*\*For the Full Spike Protein Protocol (including NAC) to protect from transmission from the “V” and to help those who took the “V”, [go here](#).**

**Deep Roots At Home now has a PODCAST!** We are covering everything from vaccines, parenting topics, alternative medicine. Head over today and like, share and download a few episodes! <https://buff.ly/3KmtZZd>
